It appears that Lopez landed on the 12th with about 1,000 men, and was instantly joined by the people of the surrounding country. Two accounts are given of his subsequent movements and the capture of the forty Americans .-The government account states that Lopez, on landing, sent of her Majesty the Queen, Esperanza. a letter to the inhabitants of Posas, threatening them with extermination unless they aided him. Subsequently a fight occurred between the Spaniards and the patriots, in which the former suffered severe loss. On the 15th, the patriots attempted to re-embark at Cubanos, but were prevented by the Spanish, and an engagement ensued, in which the for- who, from a foreign land, sent to death those who are their mer were utterly routed, and dispersed into the mountains back of Bahia Honda. NEW YORK, August 22-9, a. m. The Spanish steamer Habanero, while cruising off Bahia Honda, 40 miles west of Havana, captured a party of forty patriots, who were in four boats and unarmed, and were sup-

posed to be steering for New Orleans.

They were brought to Havana by the Habanero on Saturday at 1 o'clock, a. m., placed on board a Spanish frigate lying in port, and were executed at 15 minutes past 11 in the morning They were shot on the public road to Havana, at the least calculation in the presence of 20,000 spectators .-After they were shot, they were dragged by the feet by negroes, and then left to the mob, who commenced stripping them of their clothes, and carrying them on sticks through the streets, yelling like demons just escaped from the bottomless pit, wreaking their vengeance on they knew not what.

Many passengers of the Cherokee who were on the spot, and witnessed the executions, were sneered and pointed at, and threatened with the same fate.

Very little of the various statements as to the position of the government and the revolutionists can be instant for the Island of Cuba.

The captain-general had sent a force of eight hundred men to meet Lopez, who, when they ascertained that he had landed, advanced to a certain position, and refused to go further without a reinforcement of 700 men. This was sent to them two days before the Falcon arrived, and the report on Saturday was that Lopez had cut off all communication between Havana and the government troops, which is confirmed by the fact of the government having received no despatches from the general in command.

We have of late seen some indications and heard many surmises of another approaching revolution in Mexico, and an ably written editorial in the Sentinel confirms these reports. The Sentinel seems to anticipate the future republic of Sierra Madre, by which Mexico will lose another portion of territory equal to that she has already lost. It is also surmised that Arista will be at the head of this revolution. A member of the Royal College of Surgeons at should be be overthrown from his present power in

REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING AUGUST 28, 1851 REMARKS -Since our last Thursday's review, we have

been visited with heavy rains, which, from all we can learn, extended some distance up the country, causing the Cape Fear and its tributaries to swell to an unlooked for height. The rise of the water courses were very rapid, and the probability is, that the fall will also be rapid. Considerable produce has reached town. Perhaps about all that was ready for transportation at the time of the rise in the streams, has already been, or will be, received in a day or two The Cape Fear is in good boating condition, and our steamers are now running freely to Fayetteville.

BEEF CATTLE.-There has none been received this week, and we learn that the stock in Butchres' hands is light The lasses, bound to Halifax. She will probably be got off. same remark will also apply to Lambs and Mutton. Prices continue the same as reported last week. See table.
